

Slim Line Spanners

Tools to get to grips with.

Slim Line Flat Spanner Set

Eight piece set to DIN 3110 and ISO 3318, with holder.

Includes: 6 x 7, 8 x 9, 10 x 11, 12 x 13, 14 x 15, 16 x 17, 18 x 19 and 20 x 22 mm.

Each spanner fits into a slot in the plastic holder, in turn provided with holes for fixing to a wall. Clearly marked sizes ease the finding of the right spanner.

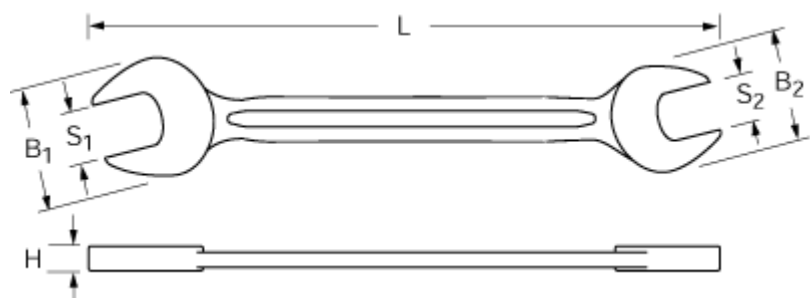

NO 23 800 Complete set

TIP:

The plastic holder for 8 and 12 pieces sets is fitted with a plastic loop used for presentation purposes. It may be removed by simply bending it back and forth a few times.

- Easy to grip, easy to handle and skin-friendly plating. No sharp edges and sides!
- Polished, chromed heads. Slim and thin-walled design for access in difficult places.
- Even though slim and light, the torque requirements of DIN/ISO are exceeded, resulting from:
 - the best steel for the purpose being used, Chrome Vanadium Alloy, drop forged and suitably hardened and treated.
 - Better than DIN/ISO requirements for dimensional accuracy. Each piece is calibrated and checked.
- Optimum surface treatment against rust: 2 layers nickel plating, one chrome.
- PROXXON INDUSTRIAL Slim Line, better quality and yet well priced.
